

Effective Risk Management

Presented by the Department of
Business Management,
University of Pretoria

The **Effective Risk Management** short course is designed to equip you with the relevant knowledge of principles, tools and techniques that would engender improved performance in enterprise risk management. You will be exposed to a series of management-related concepts which provide a veritable foundation for the building of the relevant technical skills specific to the risk management environment.

The content has been deliberately created generically to enable ease of contextual application across the public and private sectors. Through this course, you will learn how to catalyse the pursuit of organisational objectives through better risk management actions that are in line with global best-practices.

Course delivery options:

- **Virtual sessions**
- **Contact sessions**

Course content

- Basics of management
- Developing strategic initiatives and crafting objectives
- Introduction to risk management
- The scope of enterprise risk management
