

Effective Risk Management (Online course)

Presented by the Department of Business Management, University of Pretoria

The **Effective Risk Management** short course is designed to equip you with the relevant knowledge of principles, tools and techniques that would engender overall improved performance in enterprise risk management. You will be exposed to a series of management-related concepts which provide a veritable foundation for the building of the relevant technical skills specific to the risk management environment.

The content has been deliberately created generically to enable ease of contextual application across the public and private sectors. Through this course, you will learn how to drive improved organisational performance through better risk management processes that are in line with global best-practices.

Course content

- Basics of management
- Developing strategic initiatives and objectives
- Introduction to risk management
- The scope of enterprise risk management
- Risk identification and analysis
- Risk evaluation and risk response
- Fundamentals of King IV, COSO and ISO 31000
- The risk management process
- A risk-aware culture
- Organising a risk management workshop
