

Municipal Integrated Development Planning

Presented by the Faculty of Town and Regional Planning, University of Pretoria

The short course in **Municipal Integrated Development Planning** provides you with an essential overview of the municipal development planning landscape as impacted on recently with the promulgation of the Spatial Planning and Land Use Management Act (SPLUMA) of 2013. The course introduces you to the new SPLUMA by-laws and the new roles and responsibilities of both municipalities and provincial governments in development planning. This has resulted in an entirely new principle-led approach to spatial planning and land use management with a set of application procedures and protocols with their definite challenges for municipal planners, consulting planners and decision-makers.

Course content

This course, which draws on new theory and principles, best practises and experiences, will focus on the:

- New legal and policy frameworks guiding spatial planning the new roles and responsibilities (and related challenges) of both municipalities.
- Provincial government the challenges with regard to the complex intergovernmental planning system the principles of strategic spatial planning.
- The new expanded focus of Spatial Development Frameworks (SDFs) how to effectively compile, implement and monitor SDFs the challenges and requirements of the new land use management system, and the by-laws.
- How to improve and fast track development applications and development projects within the new system.

Learning outcomes

After successfully completing this course, you will be able to have a refreshed knowledge and skills base in both the public and private sector, and be exposed to the latest trends, principles, discourses and best practices pertaining to municipal development planning as a whole, SDFs and the related land use management system.

Who should enrol?

This course is ideal for all planners in national and provincial government, municipalities and corporate institutions, consulting planners, officials and decision makers involved in spatial planning and land use management processes.
