

Online Course in Cost and Management Accounting

Presented by the Department of Financial Management, University of Pretoria

The short course in **Online Course in Cost and Management Accounting** is designed to help individuals in the private and public sector to understand the costing process and how to determine costs. It also covers the management of funds by means of budgets and the use of management accounting information to make informed and accountable decisions. Topics such as absorption, variable, job and process costing; traditional cost allocation versus activity-based costing; and cost-volume-profit relations will be discussed.

Course content

- The purpose of cost and management accounting
- Introduction to cost accounting concepts and terminology
- Absorption costing and variable costing
- Job costing and process costing
- Traditional cost allocation versus activity-based costing
- Managing budgets (including cash budgets)
- Standard costs
- Cost-volume-profit relations
- Providing and interpreting financial information for decision making.
