

Online Course in Supply Chain Management for Public Officials

Presented by the Department of Business Management,
University of Pretoria

20 April -16 July 2020

The **Online Course in Supply Chain Management for Public Officials** provides you with a better understanding of the principles, regulations and legislation specifically underlying Supply Chain Management (SCM) in the public sector that will enable you to further acquire requisite skills in public finance management and administration. The course covers topics of SCM principles, systems and resources and how to secure and manage supplier contracts. You will also gain invaluable insights to the elements of SCM in South Africa, including demand, procurement (acquisition), logistics, disposal and performance management, and guidelines to the legislative framework and policies in the public sector.

Course content

- Module 1: Introduction to Supply Chain Management (SCM) in the public sector
- Module 2: Principles of SCM
- Module 3: SCM systems and resources
