

Online Course in eBusiness and eCommerce

Presented by the Department of Informatics, University of Pretoria

5 ECSA CPD Points

The **Online Course in eBusiness and eCommerce** focuses on optimising customer relationship management in an online environment by examining eBusiness and marketplace models, eBusiness strategies, eMarketing and procurement in some detail. The initial investment for an eBusiness start-up is generally lower than starting a traditional business, and with technology becoming more advanced and easier to obtain, the barriers to opening a business have been significantly reduced or even removed. Because buyers and sellers can transact at any time and from anywhere, eBusiness and eCommerce not only provide cost-saving advantages, but also make goods and services accessible on a global scale.

Course content

- Introduction to e-Business and e-Commerce
- e-Business and marketplace models
- e-Business infrastructure
- e-Business Strategy
- e-Marketing

Learning outcomes

After successfully completing this course, you will have the knowledge to create and run an e-business.

Who should enrol?

This course is ideal for you if you are an aspiring business owner and anyone interested in learning how to create and run an online business.
