

Programme in the Monitoring and Evaluation of General Health Programmes

Presented by the School of Health Systems and Public Health, University of Pretoria

30 SAMA CPD Points | CPD Reg No: 2019-0115-000575

The **Programme in the Monitoring and Evaluation of General Health Programmes** provides you with the requisite knowledge and skills to successfully evaluate, measure and observe health programmes with the aim of improving their overall performance. During this specialist training, you will gain practical experience in the collection of health-related data and the analysis of these programmes' impact on population, health and nutrition interventions. You will also become familiar with current health programme initiatives and develop an increased capacity for the monitoring and evaluation of health professionals who are active in the implementation and roll-out of appropriate interventions in the field.
