

## Project Estimating and Procurement

Presented by the Department of Construction Economics, University of Pretoria

5 CPD points from ECSA

24 SACPCMP CPD Hours

The short course in **Project Estimating and Procurement** presents you with a unique training experience in applying two of the ten Project Management Body of Knowledge (PMBOK®) areas – namely, Cost Management and Procurement Management – directly to the construction and built environments. The course provides you with an extensive overview of aspects of estimating and pricing on projects, feasibility studies to ensure project success, project finance, cash flow and cost management, as well as a sound knowledge of procurement processes and practices in the construction industry.

**This course earns you credit towards the Comprehensive Project Management Programme for Built Environment Practitioners (CPMP).**

Enrol for this short course or the full programme to upskill and get the latest international knowledge combined with local expertise to create a best-practice reference base and application in an African context.
