

Public Sector Risk Management

Presented by the School of Public Management, University of Pretoria

The **Public Sector Risk Management** short course provides you with the knowledge of the practical and critical success areas in the implementation of effective enterprise risk management in the public sector. The course will provide opportunities for practical exercises in risk management activities and will deal with overcoming implementation failures. You will also learn how to avoid pitfalls when implementing risk management, as well as improving existing risk management practices in your organisation.

Course content

Risk governance

- Risk governance and board
- The risk universe
- King IV
- Understanding COSO and ISO 31000:2018
- Regulatory regime and its impact
- Public sector view of ERM

Practical risk management

- An overview of the global risk environment
- Approaches and techniques for risk identification
- Risk workshop facilitation and facilitation skills
- Risk prioritisation and rating, including quantitative assessment tools and techniques
- Risk treatment
- Risk management reporting

Risk intelligence

- Risk maturity
- fundamental principles of a risk intelligence
- Risk culture in context

Learning outcomes

After successfully completing this course, you will be able to

- define and apply concepts of enterprise risk management
- identify the roles and responsibilities within an organisation to implement enterprise risk management as an enterprise-wide function
- understand the enterprise risk management framework and National Treasury requirements
- link risk management into strategic planning processes
- learn how to implement an effective enterprise risk management programme in an organisation
- use practical techniques to assess risks and record them
- understand how to monitor and evaluate an enterprise risk management programme for improvement, and
- understand importance of risk culture and maturity.

Who should enrol?

This course is specifically aimed at officials in the South African public sector. Anyone tasked with establishing, implementing, facilitating or improving current risk management activities and ensuring that significant risks are being managed appropriately, should attend this course.

Course fees

R5 100.00 per delegate (VAT incl.)

Course fees include all course material and refreshments during contact days.

Admission requirements

Prospective delegates should at least have the relevant work experience or prior knowledge to enrol. Anyone who has successfully completed a SPMA short course at Enterprises University of Pretoria and has a Bachelors degree will receive automatic admission towards the Masters Programme in Administration (MPA), on condition that the application is processed as per University of Pretoria requirements.

Accreditation and certification

Enterprises University of Pretoria (Pty) Ltd is wholly owned by the University of Pretoria. As a public higher education institution, the University of Pretoria functions in accordance to the Higher Education Act 101 of 1997. Enterprises University of Pretoria offers short courses on behalf of the University and these short courses are not credit-bearing, and do not lead to formal qualifications on the National Qualifications Framework (NQF) – unless stated otherwise. Delegates who successfully complete a short course and comply with the related assessment criteria (where applicable) are awarded certificates of successful completion and/or attendance by the University of Pretoria.
